

## Product Reviews

### Lip balm:

I bought this lip mask after reading the reviews and the hype Unfortunately it did not meet my expectations as vaseline petroleum jelly works way better for me

My review title says it all I get so excited to get into bed and apply this lip mask I do see a difference because I suffer from dry cracked lips I drink a lot of water and apply lip balm daily but nothing helped until I started using this untiluntistafted usinf this

Ive always loved this formula for a long time I honestly dont even use it for night time I use it as an everyday lip balm I love the texture Gummy Bear is my second most favourite scent Grapefruit is the best in my opinion

If you have dry cracked lips this is a must have After a few weeks of use I have learned I will always have by my bedside I thought it was a little expensive but a little goes a long way It is worth the price

The scent isnt my favourite but it works great I put it on every night before I go to sleep and every morning I wake up with smooth moisturizer and soft Packaging is amazing as well

Ill give this 2 stars for nice packaging and lovely scent Upon initial application it feels very nice But as I continued to use it I noticed I was getting more and more blackheadsclogged pores and pimples around my lips I thought it was my Aquaphor but its THIS It also makes my lips even more dry than they initially were Disappointing around my

I use this at night or while Im putting makeup on Love the way I dont have to reapply it during the night Definitely a win

I love this stuff I first had the sample size from a Sephora Birthday gift and once I had run through it I knew it was a purchase I live in an incredibly dry environment great for macarons but terrible for my skin This lip mask helps to keep my lips from becoming too chapped I purchased the Sweet Candy scent at my local Sephora and I am OBSESSED I will be honest the scent is a bit strong but theyre all strongly scented My lips are so soft 1010

this product is a bit pricey but after using one scoop i figured this will take a LONG time to use up the whole container it smells so good and the container is so cute

I use this every night and morning and it works wonders This never fails to make my lips super hydrated The tint and shine to it makes it even a great lip gloss during the day

A little goes a long way Love the fragrance and works great as a night lip mask Only reason I gave it 4 stars is because of the price

Honestly I was so excited when I got this in the mail But unfortunately it is not worth the hype I have boughten two of these full size and I went through them so quickly The ingredients are not very clean and this product made my lips so dry I wanted to like this product so bad as its so cute and smells nice But unfortunately it is a hard pass for me I will be sticking to my vaseline and aquaphor for now

Does the gummy bear mask smell absolutely delicious Yes Does it do much for my lips overnight Nope They are dry and a little chapped in the morning I honestly have better luck with my vaseline lip therapy but I am still keeping the Laneige to use as a daily balm

I just got this a few days ago its amazing I love the berry scent Its very hydrating and my lips are so smooth and glossy My lips are always chapped and dry this has really helped

i love how hydrating this makes my lips feel perfect for an overnight lip mask or just a gloss as well lasts forever

Its super glossy and looks amazing but doesnt last very long after use

i have used this for about almost a year and my lips are so soft once i use this not only do i use it at night but just when i need a quick moisturizing pick up for my lips

I have this in every colour except for sweet candy which will be my next purchase but I got the kit with the 5 minis for christmas and I honestly love these so much I wake up and my lips are instantly smooth I can also use it as a lipgloss and its honestly my favourite lip product ever Theres nothing wrong with it but i think it was overhyped on tiktok It actually made my lips a little dry

Just like Aquaphor just get something cheaper its just overrated Its good but they also animal test

I just started using it but from the first night my lips felt way better The next morning they even looked fuller which Im not sure if thats the intention but still And the berry smell is so good

This lip balm is the best I ever had It works It hydrates and last long It has everything you need in a balm It even has a little spatula that you can use to scoop the product easily and cleanly Not worth the hype My lips are still dry after using this product nightly had much better results with the Ilia Lip Wrap and its a cleaner product

Super hydrating and smells really good unlike certain lip masks

i love this product it leaves my lips so hydrated and the colour is immaculate

i really tried to love this i wore it to sleep every night for a month but every time i woke up with lips chapped and peeling overhyped and not worth the money just use vasaline

Love this Im obsessed with the Gummy bear scent This stuff is so thick and creamy Lasts for hours Very hydrating Loved it so much I bought the daytime gloss Candy also smells amazing

I love this lippyit makes my lips soft and also is helping my acne scars to fade and no idea why dried my lips out sooooooo bad literally were cracked peeling and bleeding I stopped using it and it got better def do not recommend buying this

I used this product daily last week and my lips hurt I stopped using it and just used Aquaphor to heal them and they are doing much better I might be allergic to this product

I really loved this product and did use the whole thing it lasted over 6 months and I thought did a decent job The only problem is that I noticed part of my lip started to get super dry and no matter how much I used how frequently I reapplied exfoliated my lips it did not get better

Nothing else in my routine changed except for adding this product in so this did cause my lips to dry out and didnt fix it Its not worth the price Vaseline works just as good and never dried my lips out

This product is amazing I use it before bed and also throughout the day as a lip balm Its so smooth and feels amazing It doesnt have a sticky feeling at all My lips are soft and smooth since adding this my routine I will definitively be purchasing again

In my opinion its very over hyped Its not very moisturizing I prefer Tarte Jelly Glaze over this and its also half the price which is the whole point Its not horrible but its not good either Plus Im pretty sure they test on animals so that doesnt make me appealed to buy again

I almost want to wear this all day long Its so tasty and so pretty when its on The only reason I didnt give it a 5 star is because it doesnt really stay on long enough Definitely not all night long It is so moisturizing and keeps my lips super soft and hydrated

I am super impressed with this lip mask I use it at bedtime and wake up with soft lips I struggle with cracked and peeling lips every winter I also use it on top of my lip liner in the morning for a plumped soft look

I used to like this product until I found out it has BHT in it which is HAZARDOUS Please do your research on the ingredients and you'll see this is horrible for you and your body especially if ingested

love this so much I use it every night and it keeps my lips so hydrated because they used to always be so dry and chapped 5 stars 100 recommend

Obsessed with this The first few days I wasn't seeing ton of results but after using it consistently for a bit my lips are no longer chapped I don't have to reapply chapstick throughout the day My lips also look fuller Wasn't excited about the price but a small amount works well

I've been using for a couple months now and it seems great when you first apply however I've seen no improvement in the long run Lips are still dry and peeling

I wanted to love this product so bad because of all the amazing reviews but it honestly makes my lips so disgustingly chapped I've used other lip masks that this hasn't happened with and went back to try the Laneige one again and it gave me chapped lips again

I've never used this kind of product I tend to be very minimalist After 1 night I was already so impressed I had it mailed to a girlfriend as a gift as far as scents go if you're shopping online all of the other ones are strong smells it all smells like 90s chapstick This one is milder easier to go to sleep next to someone imho

Don't waste your money I had gotten this as a sample and used it as the directions said it was very hydrating but overnight my lips were still dry it'd supposed to hydrate my lips overnight Maybe I'm just wrong

I've tried my friend's a few times and it does good and smell nice but there are definitely dupes like the Burt's Bee lip treatment that are much cheaper and as good

My lips were always so dry but this product made them so soft and hydrated I put it on at night but also during the day over a lip tint Love it

It works makes my lips soft so I don't need to use chapstick throughout the day Sometimes I use it as lipgloss instead of a night mask

Literally love all of Laneige products The lip sleeping mask has an amazing slip and it's just the perfect overnight mask Not sticky at all

I've had this lip sleeping mask for over a year now and it is the best overnight lip mask When applied to my lips it feels super soft and does not feel sticky When I wake up my lips are super soft and smooth 10/10 get it now

So good I love the smell and I bought 3 times to use this product we can use this lip sleeping mask in half a year it is not expensive for 070

Amazing My lips literally react so badly to every single lip balm or chapstick I had an allergic reaction to Jack Black SPF lip balm and this saved my lips They are super soft and moisturized I use this every single night right before I go to bed and it leaves my lips super smooth in the morning

I have these in vanilla and sweet candy I use them every day multiple times a day They hydrate much better than standard lip balms and they last forever I've definitely had them for over a year they don't change in consistency or effectiveness

This product is amazing It really does smell like gummy bears and leaves the best moisturizing feeling for a period of time Stays shiny like a gloss

This product is marketed as a sleeping mask but i would say its more of a lip balm It doesnt hydrate at all so dont turn to this looking to help dry lips It doesnt last long at all But it does look pretty on the lips is not sticky and has a really nice buttery texture Just wish that wasnt the only upside

This product is a DEFINITE must for chapped lips I get really chapped lips when Im stressed out especially in the winter and it saved my life

Love it Use it every night and it keeps my lips juicy throughout the whole day even in winter storms canada Highly recommend it tastes great too

Received this in the Sephora birthday pack Wanted to love this strawberry scented lip mask but it didnt do much for me Actually left my lips feeling a little drier I fine almost any other lip balm works better

after using this product for weeks it makes my lips feel very nice and you dont really need a lot at a time so for the price id say its worth it because u dont need to use that much it also doubles as a lipgloss

Ive been using this for over 2 weeks now and its sooooo good keeps my lips baby soft and it smells so nice and sweet too 10/10 recommend

It keeps my lips so glossy hydrated You can use as lip gloss if you want too

Je ne comprenais tellement pas pourquoi tout le monde se lanait sur ce produit jusqu'a ce que je l'essaie moi-même Il hydrate tellement bien les lèvres il sent trop bon est pas désagréable Perso je le porterais jour comme nuit avec mes lèvres sèches ce produit me donne l'impression de renaître En plus il vient avec un petit applicateur donc pas besoin d'avoir le doigt tout gras en principe dedans J'adore Je ne pourrais plus m'en passer Il devrait toutes fois sortir plus d'odeur qui sont plus douce

love her as a sleeping mask i dont think you could ask for anything better

really not worth it to be honest barely hydrates my lips so expensive and not cruelty free kinda worth it cause of packaging i was so hyped when i bought save ur money and buy some aquaphor instead

Amazing product for dry lips It is a mask so you apply before bed then wipe excess in the morning It smells so good you just wanna chew your lips off! wont of course lol Great product for out of control dry lips like mine

Really like this product for before bed Its super hydrating and doesnt feel tacky The scents are great too

This is now my second time purchasing this product It is super hydrating also nice to wear during the day as well

Within just a few days of using this lip mask my dry lips from the cold dry winter feel so much better Not overly greasy and easy to sleep with it on

Love this lip masks so much I bought so many other flavours and if you have been thinking about getting it just buy it It is literally so good I would literally spend all my money on this Im not joking its literally amazing

I think this is overpriced for what it is lip balm It is nice though and when I apply it my lips feel nice Definitely a luxury and not a need

I love this product because it keeps my lips really hydrated in the cold weather

Received a sample and had to buy the full size immediately after I finished it Ive used a lot of Blistex and other chapsticks and I think this really helped heal my chapped lips Definitely recommend

I love this product so much I use it day and night Its so hydrating and its like a lipgloss

Love the flavour et my lips are soft in the morning

I know this doesnt work for everyone but it sure works for me I use it at night and wake up to moisturized lips A big caveat is that if Im not drinking water ie that time I lost my water bottle for three days there is no amount of lip balm that will fix my dry lips Also if you like the Japanese grape flavour this is what the balm smells like exactly Which in my case is the perfect scenario Not greasy or sticky and no flavour if you eat it A little goes a long way imo so the price is a good deal for me

Ive repurchased many times make sure to keep spatula so you dont use your fingers so you dont get bacteria in it

I have a sample size of this product It is very glossy and looks nice when first applied

Unfortunately upon leaving it on overnight I found my lips chapped in the morning and flaky

This has really helped my dry lips especially in the winter A must have in my routine

Mes lvres sont beaucoup mieux hydrates aprs seulement 1 semaine d utilisation J ai essay un autre masque de nuit avant celui la mais il ntait pas efficace En plus Laneige sent super bon Lapp

not sticky looks like gloss but feels like a lip balm or butter I hate sticky lip products and i love this looks very pretty too

I dont see the hype for this product It doesnt work every time I use it just once in a while It gives my lips a nice glow and temporary hydration but not as a treatment or for long term results

Would not repurchase

Didnt enjoy this product I got it as a birthday gift Ive only used it twice Both times it dried out my lips badly that it took a week to get better It left my lips more chapped than I began with was

This product smells good but that is basically the only good thing The lip mask feels like a weird bubble gum and looks identical to Vaseline when on your lips Maybe if this product wasnt thirty dollars dollarsit would be worth it but since its not I do not recommend it would be worth

I adore this product It is perfect for any time of the day I used to wear it only before I went to sleep and it would make my lips so soft by the morning Now I also use it as lip gloss during the day It makes my lips look very glossy and plump similarly to when I wear the Dior lip oils

Good product feels nice on the lips I wouldnt say that it is the most hydrating but it definitely looks good on the lips

Hydrating and smells super yummy Ill use this as a quick hydrator while Im doing makeup if I know Im putting on lipstick This little jar will go a long way Also love that it comes with an applicator

I took the sweet candy one I dont like it Bought it 2 months ago still have it

my lips have been dry and flake for as long as i can remember i finally got this and aquaphor and finally noticed a difference in one night my lips were smooth and every since then have not flaked

This product is so cute especially with the little applicator for your lips It keeps my lips hydrated really good and I absolutely love this product

I love the feeling of all of LANEIGE lip masks and was so excited to try this one Yummy candy but not too overpowering

I use this night and morning and LOVE it This tub lasts SO long too

its good i like it it lives up to the hype nothing more nothing less also why tf are we spending 24 on lip balm lol

I love LANEIGE but i dont think this is worth 30 it is rly good but i would wait for a sale or get it cheaper online

good for use all day not just for night made my lips sooo soft

I love everything laneige and this is no exception Living in the Midwest in the winter this has literally SAVED my lips from being cracked and sore all winter

Its the holy grail of lip hydration I dont love the applicator though and feel like it could easily be in a tube instead

its nice but buy the amazon dupe Also the application is a bit difficult They have one with the squeeze tube thats better

I dont understand the hype its definitely not work the money Doesnt stay on very long and doesnt make a difference in hydration The vanilla left a film after use Only good thing is the smell

Im the type of person that bites and picks on my lips constantly and I decided to give this products a try and apply it the second I go to bed Few days my lips have never felt so soft Obsessed Ive used the Berry Mango and Gummy Bear scents and I love them I use every night and can still feel them on my lips in the morning A definite must have

I tried it first from the mini version Sephora gifted and I loved it so much that it inspired me to get the full version But what Ive noticed after using it for quite some time is that it stopped really working Maybe the mini version is more concentrated but overall its a great product

Truly nourishing and very sexy wet look too I use it before going out during winter days

I really wanted to love this but I ended up just liking it It does hydrate but its not the absolute best out there I would recommend the berry flavor as opposed to the vanilla flavor The vanilla just tastes odd

This feels and smells nice but over time it dried my lips out more than any other lip balm mask Ive ever put on my lips My lips were literally peeling after using this for a few weeks and Ive never had that happen to me before

I think its worth the price because Ive been using it for about a year and I still have some even though I put a lot on at night and sometimes during the day It works really well for me and lips feel so soft and moisturized when i wake up

i loveeeee this mask it instantly makes my lips hydrated and i wake up to smooth soft lips a little goes a long way and this will definitely last a while i definitely recommend

Love So moisturizing and cute Love putting it on before I go out or before bed and it leaves my lips feeling soft for hours

Love this product I use it at night and wake up with hydrated lips smooth and plump Best lip mask Ive ever used

This is awful and feel bad my daughter bought me this for Xmas It does not moisturize my lips at all Wish I could get a refund since she wasted her own money on this

Ive used this every night for 3 months and I still have so much product left I can still feel it on my lips in the morning and its left feeling super soft Its a staple in my skincare routine 3

I've been using this product for years and love it. The peppermint has a nice tingle and smells amazing. 100% will repurchase if it comes back.

Excellent produit. L'apparence de mes lèvres a changé après 1 semaine d'utilisation. Plus hydratées, moins rouges et plus uniformes.

The winter time always leaves my lips dry but when you add wind and freezing cold temperatures my lips become chapped and irritated. Laneige has become a staple in my makeup bag. In fact, I have one in my purse and in my car as well. I saw a difference in just using it a few times. It deeply hydrates my lips. I feel relief instantly. No more chapped lips for me. I highly recommend this product. All of the scents are great. Gummy bear is my favorite.

I've been using this for 3 months and it has saved my dry cracked lips. My lips are always sore, bleeding and cracked. After using this, I have been waking up with really soft lips. 10/10.

Meh, I mean it's OK. I like the Fenty skin one better and this one is super pricey for what you're getting. I got the grapefruit and it smells really good though.

I live with this mask on my lips all winter long. I live in a cold, dry environment and most lip balms and chapsticks don't help. I apply a thick layer of this lip mask at night and some days I will apply it throughout the day. I haven't experienced chapped lips at all this winter. It has even saved my lips when I've forgotten to use it for a few days and have had chapped lips that require repair.

I love the initial application because it layers so well on your lips and feels hydrated. But after 2 uses, it began making my lips feel all chapped. Better off with Vaseline.

Highly recommend. It works great, especially after exfoliating my lips. I use it as a gloss during the day and smells great.

I received a sample of this lip mask with my order and OMG, it got rid of the hyperpigmentation on my lips after only one use.

I've had this product for about 3 months now and let me tell you, I love it. It makes my lips super soft in the morning. The scent is also amazing, definitely.

I decided to give this lip treatment a try back in August 2022. First, I have been using it every night for the last 6 months and I have barely made a dent in it. Second, I usually use Blistex at night and throughout the day to keep my lips hydrated and protected from Canadian winters. Since using the sleep mask at night, I rarely have to use my Blistex. As far as bang for buck goes, I highly recommend. This is an excellent product.

This has saved me during dry, cold Canadian winters. I am prone to dry lips that could even crack when left untreated in the winter. This mask has helped keep my lips soft during the dry months of the year.

This product is pretty good and it moisturizes my lips well. My only issue is the taste and smell is kind of artificial. Great product though.

Pros: Made my lips very smooth. Smells amazing. Cons: Is a little pricey. Test on animals. But I would recommend.

After using the entire product, I am not impressed with how much the product dissipates once applied to the surface of your lips. I like it for the thick shine and smell, but that's about it. Would not recommend it.

Amazing, luxurious, yummy lip mask treatment. Hands down, the best lip treatment ever.

I use this every single night. I wake up with the softest lips ever.

It is a good lip sleeping mask and I use it every night It helps reduce itchiness around my lips during day time

I LOVE this product I use it every morning and night It may be kind of expensive for a lip balm but mine has lasted for over a year I just wish they made it in a stick form so I didnt have to put my finger in it and it would be easier to use on the go

I LOVE THIS SO MUCH so hydrating lasts super long and generally a great product BUY THIS First night I used this I thought it was overrated second night I woke up with new plump hydrated lips Worth it

I heard amazing things about this so I got it and it was amazing

Using this every night has literally transformed my lips I no longer need constant hydration throughout the day I just grab some of my fave lip balm as needed Also gummy bear is the BEST smell

I have never found a product that helps my lips like this Ive been using it for a year now and it is a LIFESAVER I have tried so many other lip masks including just plain Vaseline and nothing compares Highly highly recommend lasts for a very long time too

Love this stuff it has saved my lips I wear it every night and my lips still feel soft in the morning This is a great nighttime and daytime balm The smell is great and the balm is so hydrating without being sticky My fave for treating chapped lips

I used to love this product Because it feels amazing at first However now I realized that its not very long lasting on the lips theres definitely better alternatives like the summer Fridays lip butter Fenty lip mask I have to admit I do love getting the limited edition once every year I would not repurchase as there are better ones out there It dose work at keeping what moisture I have in my lips but dose not add any which really sucks

Absolutely love this line I usually do the original or the gummy bear I always wear this before bed and right before I walk out the door to start my day Its hydrating and I havent found anything that is as comfortable and hydrating Its not sticky and the smell is lovely not too overpowering

1010 I recommend this so much I was dehydrated and chapped and this gave my lips a complete transformation I use a decent amount at night and i use a thin layer during the day in place of chapstick

Feels nourishing nice for sleeping but can still be worn as a lip balmgloss during the day The vanilla scent isnt as yummy as I was expecting and doesnt last I usually love vanilla but I think the fruity scents are much better

i first didnt understand the hype around this product when i tried it at the store but i decided to give it another chance and i really enjoy it now you get a lot of product for the price and has an amazing sweet vanilla smell

Its not bad but does nothing more than a 1 lip balm

I used this over the course of a couple of nights its basically just a lip balm Which feels good on my lips But it did nothing for me overnight it wasnt worth 22 so Im exchanging it for fenty Smells so good Automatic difference once applying this product on dry lips great product I put this on every night and wake up with hydrated lips

I know everyone loves this lip mask and I do too but after trying the Lawless Forget the Filler sleeping lip mask I dont find this la neige option totally 5 stars anymore The consistency of this lip mask is a bit thicker and stickier and takes longer to really sink into your lips It does however

leave them feeling super smooth and I like the little bit of color the Sweet Candy option provides All and all a great product but there is better out there

I like this product overall I find that moisturize my lips and keeps them hydrated but I will say that I am very disappointed to find out that this brand tests on animals

I got this as a gift for secret santa and after using this product for a couple of days Ive found that it doesnt moisturize my lips as much as I would like The applicator gets musty and gross after a few uses unless you wipe it down after each use which can be a hassle Overall I dont think the Laneige masks are worth the amount of hype theyre getting I love the smell and texture though and it comes with a lot in it Its a sweet strong scent Im giving it three stars because Im not sure how I feel about it

I love this product as t moisturizer my lips perfectly I have really dry lips as well i have a problem in heat that my lips start swollen But if i used it my lips dont dry out for almost 78 hours So love it

i bought the peppermint one back in october and have been using it about every other day since in my opinion it doesnt work that well it felt nice when putting on but i dont think it actually hydrated my lips for some weird reason i started using the clairins lip oil while it is a lip oil and not a lip mask my lips have felt significantly more hydrated and plump since i first started using

I literally love this lip mask It smells so good and it moisturizes my lips so well For me a must have

I bought a mini version of this just to try and I regret it because i am ABSOLUTELY IN LOVE with this product and will now have to buy it all the time Really recommend

Ive been using this product for a couple days and I love it but when I go to sleep with it I get acne around my lips i dont know if Im allergic or something

I wanted to love it Made my lips worse no matter what I did Not worth it honestly Only positive is it smells nice

This product feels great when you first apply it but I think its overhyped I noticed my lips got drier whenever I reached for this product It smells good but its essentially a gloss in a jar

I love this product I have been using it every night for the past 5 years and I feel like it has made such a difference

I bought this lip mask almost a month ago and am already almost out because of how frequently Ive been using it My lips use to be crusty now they look much healthier and feel smoother Ill be buying again

Jadore la texture mais le produit sen va rapidement

I really wanted to like this but it really dries out my lips when I wake up in the morning plus it clogged pores around my mouth Dont believe everything you see online

I received a sample with a previous order and gave this a try Wow I wasnt expecting much but this has made a huge difference in my lips I use it right before bed and its like first aid for my skin The smell is pleasant and a little goes a long way I love the little silicone applicator that comes with it Everything about this little baby puts it over the top Love it and highly recommend

I love these This is my fourth flavor and I love it so much It leaves my lips looking glossy in the day and hydrated in the night with a sheer pink tint I love these lip masks

has a very nostalgic smell that I love on top of being super thick hydrating all throughout the night also use this at the beginning of my makeup routine to ensure I have soft lips by the time I put on lipstick

Love this product so much but the peppermint scent is the only good one The other scents smell so fricken bad I couldnt believe it The only bearable scent is the peppermint

I received this product a few years back in the gift set and always repurchased it since Its very hydrating and a little goes a long way I get really cracked lips during the winter and this lip mask really changed my complexion I recommend using a lip applicator as the mask is very has a very sticky feel

I had 3 samples of it Im a sephora addict and I made 3 purchases in one day on the site and these were the only products I wanted in the samples of the day I never really paid attention to this product I saw the influencer hype and that was all the more reason not to check it out So Im on my second sample so Ive been using it for 1 week and I have to admit that wow The feeling on my lips at night before bed is amazing my lips are super soft in the morning and I really dont need to put on as much lip balm as I used to during the day Im the first one to be shocked I have to admit as someone who has dry lips all the time and lives in a very cold area Ill probably spend the 29 for the full product I know but its the truth

this is overhyped i just finished mine and whenever i would use it it would leave a nasty film on my lips after like 30 minutes of applying it thats the best way i can describe it and it wouldnt even do anything it smells rlly good tho

Great product its been an amazing overnight treatment

Jadore les baumes laneige mais celui au gummy bear ma t offert en cadeau Jt ait trs heureuse mais finalement il sent la pte modeler

This product moisturizes your lips and keeps them soft I think its worth it to buy this

This product is great for my lips It is the only one that I could find that leaves my lips moist even through the night I would recommend this product for people with dry and cracked lips

Ever since Ive been off of accutane which caused dry lips I have had a habit of putting a lip balm or lip mask on my lips I would normally say go buy a lip balm its cheaper but lip balms for me tend to dry out after a couple of hours this one doesnt My lips feel hydrated and refreshed all night I got the vanilla one and it smells like warm sugar cookies Its 24 but itll last you A LONG TIME because you dont need much at all Best lip mask for me

I dont understand the hype for this product Personally for me it dried my lips out

Keeping my lips in good shape Tastes and smells good

The only thing that has saved my lips during the winter I always have to stick up on chapsticks and lip balms and this has kept my lips nice and smooth without all the peeling

I tried this twice and I broke out in sores the morning after both times Literally thrown in the trash

I bought this mainly for the scent It smells AMAZING and feels great on my lips I use it more as a lip balm than a mask but It moisturizes pretty well Only downside is its really sticky and stains my pillow cases

Even when the mask comes off my lips feel hydrated and I dont think it is overprice because of how big it is and because how popular it is considering a lot of the viral sephora products are veeery expensive Love it

It smells really good it just doesnt work better than significantly less expensive options for preventing dry lips In my opinion its overrated and I wont buy it again but if youre looking for a fun little luxury product then this is great

I love all of the other colors of this product but peppermint is not it It leaves a white cast on ur lips unlike the others

I have very dry lips but not crazy dry and after a while of going back and forth I finally decided to splurge on this sleeping mask It works but not for longer than a few hours after I wake up It definitely doesnt help long term or for prevention and it can really only be used at night because the second you eat/drink it comes right off If it was cheaper I would still leave a good review but for this price I really expected something amazing and as luxurious as this looks and feels it just doesnt work as well as something this price should I dont think it works any better than Aquaphor and maybe even not as well that being said it smells amazing feels soft I just wish that feeling would stay until after I eat breakfast and it lasts forever It also gives your lips an amazing glossy look while its on so if Im going out for just a little bit and Im not planning to eat/drink I use this instead of lip gloss and it looks amazing I have some friends who have this in the type that comes in the squeeze bottle that is meant for during the day and they said it works much better so I might just get that instead overall if your lips are very mildly dry and you want to treat yourself I would say go for it if money isnt an issue If your lips get very dry very quickly this just doesnt do the trick

I would give zero stars if I could just because they TEST on ANIMALS But I got this as a sample in a hydration kit I purchased and it really isnt worth the hype Didnt really make any difference for me Maybe it made my lips a tiny bit softer in the morning but nothing huge that lip balm cant do Not worth the price of fullsize and I wouldnt purchase

Love It is so hydrating I apply it each night and morning and it has changed my lips

10/10 Really Smooth I love the texture the smell is okay

Super hydration long lasting and very time I use it Weather its at night or just during the day i love this lip mask its so hydrating and makes my lips feel so smooth i have three different flavours and they all smell really nice 10/10 recommend

Love this product I purchased this recently after having seen so many people rave about it and it was worth it It makes your lips feel hydrated and keeps them moisturized It is simply great I purchased the bespokeish BTS set that did include Sweet Candy aside from the limited flavors The most beautiful formula that melts instantly once applied to your lips even the more gourmand flavors such as Butter eventually transform to a light berry aroma and why I mention this is at that stage is where the application truly sinks into your skin When you wake up you feel every fold in your lips is drawn forward feeling more fuller and hydrated Basically baby lips After using this product for the last two weeks let me just say this I brought another one It applies so smoothly and lasts long and keeps my lips hydrated and moisturized they got me for life

I personally love it I put it on last after I do my skin care right before bed And I wake up and its mostly all absorbed I will be buying it again and again

love this product it was my second repurchase and im obsessed i use it at night as a lip mask and in the morning as a glossboost for my dry lips as a student i also keep a mini one in my backpack price seems excessive though its kinda

On application the mask takes forever to absorb and leaves my lips feeling greasy and sticky hence why its a sleeping mask I suppose though I could see it just ending up all over your bedding But thats not my biggest issue with it Its that it doesnt work It leaves my lips dry and cracked Ive ended up with multiple free samples of it that Id rather just throw out and use a product that actually works instead

This really didnt work for me At all It was somehow worse than using nothing Every morning I would wake up with dry crispy flaking lips 2 balm from the gas station gives me better results Works for me I use a thick layer of this last thing before going to sleep and wipe it off in the morning with a damp wash cloth My lips always look plumped up by the morning but after wiping off I sometimes find that theres a thin layer of hydrated but dead skin that needs to be removed especially in my case where on most days a drying matte lipstick is about to be applied So a good lip exfoliator it is and if I dont have the wash cloth handy then I just reach for the exfoliator I have this in Vanilla which smells somewhat artificial but that doesnt bother me much so long as it works this well What does concern me a bit is the ingredients list its not the most natural quite a number of chemicals and Im all too conscious of the fact that this is on my lips and inadvertently some of it will be ingested even if its a tiny amount Im not sure if thats a good thing If not for that I would have given 5 stars as the product itself does what it promises to My Sephora Top 7 musthave list My top 7 musthave beauty products of all time focusing mainly on my purchases at Sephora1 Hair Loss Treatment Divine Herbal Hair Oil 2 Shampoo Sephora Collection Deep Cleaning Shampoo3 Face Mask Peter Thomas Roth Pumpkin Enzyme Mask 4 Pigmentation AntiAging Serum Divine Herbal Facial Treatment Serum5 Face Scrub Sisley Botanical Gentle Buffing Cream6 Lip Balm Nuxe Reve De Miel Lip Balm7 Lip Liner Sephora Collection Rouge Gel Lip Liner

I bought the small packs with several in them I enjoy wearing the product all day as it gives glossy look However it does not help the lips if is not on constantly I find my lips dry and sore despite using this regularly for months I have like 9 of them in random pockets desks in the car etc I always have one around but my lips still hurt I feel it does nothing for them other than look nice and feel soft when actually on I would recommend it for a look but not for healing purposes

Absolutely changed my lips suffered from very cracked and dull texturecolor After using for a couple weeks now they are so healthy and vibrant also use along side with their day lip balm I have very sensitive skin and this lip mask is so perfect and soothing It has taken me almost a year to get through 34 of it It stays on my lips all night too

Love the way this makes my lips feel and look Wear all the time day and night and my lips look and feel so soft

works slow had this product for 3 weeks and just starting to see my lips getting better but i love it and the smell is so yummy get this

I love it the flavour and the little applicator that comes with it is very good I love that you dont need to much of it and the container lasts forever The price is a bit high for my taste But it does last a long time But I do find that it doesnt hydrate the lips for a long time like in order to keep the lips hydrated you need to use it every night

This product works fine but its nothing special Ive been using it pretty consistently every night for several months and it definitely does help my lips feel more moisturized But it wasnt good

enough to warrant the price Honestly you'll get the same or better results from some Aquaphor healing ointment for a quarter of the price

I will never stop raving about the lip sleeping mask if I was on a desert island this is the one product I would bring with me it makes my lips look soooooo full but natural and I have naturally smaller lips It genuinely made such a difference my friends were asking me what products I was using I usually put it on as the last step in my skin care routine morning and night a thicker layer at night and when I wake up in the mornings my lips just look amazing THIS IS YOUR SIGN IF YOUR QUESTIONING IT BUY IT RIGHT NOW ITS A SERIOUS LIFE CHANGER Best lip mask EVERRR I have used it every single night for a few years and I always use it before I put makeup on Its extremely nourishing and hydrating Love it

I love the actual product but some of them smell like nothing the vanilla and original berry smell like nothing at all The chocolate one smells like chocolate and is pretty good and the gummy bear one smells so good

One of my favorite lip products It keeps my lips from getting dry at night during the winter I add several layers before I head to bed to make sure it stays on and I reapply in the mornings and throughout the day as needed This helps with chapped lips

I purchased this product 3 times Im wondering if they changed the formula This time my lips feel chapped burning and dry Such a disappointment from my previous 2 purchases terrible product they made my lips extremely chapped for a week and my skin was dry and peeling do not buy

Its works like a miracle and gives soft and smooth lips

Le resultat est instantan les lvres sont repulp et hydrat

I love this lip mask it hydrated my lips and makes them so soft Since it is winter my lips get so chapped but ever since I used this they havent been chapped

100 worth it Ive been using this product for about 6 months and its changed the game I use it before bed every night and I wake up with super hydrated lips Ive never woken up with lips this smooth

I wear all day every chance I get The high shine is soothing and sexy A great product indeed Best product I have used I love how it feels on Not sticky at all Makes my lips super soft and it so shiny and cute I wear it all day

I love this lip mask Keeps my lips hydrated Not sticky I also love that it comes with a little applicator so you dont have to use your fingers

Mid results feels good on lips but also the flavorscent is nauseating

The only lip product that really hydrates my lips during winter

Horrible I used this product THREE times and it DRIED my lips out and im still healing from it Im using aquaphor chapstick vaseline to heal it but still hasnt fully gone back to my normal lips

Thworst purchase ive ever made

Not worth the hype for the product Not only did it not hydrate my lips I felt the need to keep reapplying to get some sort of relief The fact that they test on animals is a bit NO for me Will not purchase this brand again

I really liked this product at first When you first put it on it feels soothing and hydrating Over time my lips started getting really drywere peeling and I realized this was the culprit

This aint it Product feels nice when first applied and smells great However I find this product chronically chapped my lips definitely does more harm than good If you are looking for a great

conditioner I recommend the NYX lip conditioner Much more affordable and much better results imo

The product smells and feels amazing once you put it on but when I wake up after sleeping its gone and my lips feel dry

To be honest this wasnt anything special Its fun to have in your routine because it smells nice and feels nice but it doesnt really provide great hydration You can easily find something better for a third of the price

I am loving this lip mask as it has made a noticeable difference to my dry cracked lips Winter can be a rough time for me because my lips get so dry and chapped I would recommend that anyone try this product

I absolutely love this stuff I use it throughout the day and at nighttime before bed Leaves my lips feeling hydrated and soft Highly recommend

It made my lips more dry and they felt horrible It is not the worst out there but definitely not worth the price I do love the smell

it works so well and has so much product worth the price only thing is the container its in it gets annoying from time to time how u have to use a small brush

After using this I immediately felt a difference I now use this all the time not only at night while sleeping It moisturizes your lips without feeling sticky It also looks just like a lip gloss but doesnt feel like one

This broke me out around my mouth REALLY bad I had to discontinue use

In just one night this product has changed the way my lips feel My lips feel really soft and moisturised Definitely worth all the hype

Bro I got the pumpkin one and its soooo drying it feels like you havent drank water in a month I dont recommend i think the berry one is the only good one but Ive only tried that once so i dont know

Love this product Have it almost all flavours Leaves your lips feel moisturized for hours

I like the laneige lip mask however I would say to save your money Its nothing special and is essentially a fancy lip balm rather than a mask It is super cute and fun to use though but its not worth the price point

This mask is the best for overnight lip care I used to have cracked dry lips all winter but once I started using this almost every night my lips have been so healthy My lips even stay hydrated the next day I often dont even need to apply chapstick throughout the day You also only need a tiny bit each night so its really worth the price

Is this product perfect No The jar isnt great for dipping into I use the end of a skincare spatula to snag the teeniest bit and I wish the feel were a little less tacky on That being said it does last a really long time and for the price especially given how little of it you need its worth every penny I use it almost every night and frequently swipe on during the day when my lips need extra love I really wanted to like it It started with a really good hydration and my lips felt so good but unfortunately as the weeks went by my lips started to have red bumps on them and as soon as i stopped using it they went away

I tried a sample of this and I will absolutely admit that it lives up to its claims but it was an unenjoyable experience for me First did not like the scent Just reminded me of play doh Second it somehow felt very thick and gloppy but slippery at the same time I already didnt like the smell

and then it got inside my mouth from just moving around so much and it didnt taste good either  
But the next morning my lips were hydrated So theres that

Nope nope nope Used for the past month or so and realized dry patches on side of my lips and my lips literally are never not dry and cracked My lips were fine before this so I came look at the review and saw one mention something called angular cheilitis and looked it up and thats definitely one of the things that was caused by this going to stop using and Im sure my lips will be back to normal now that Ive finally figured out what was the cause

I currently have gummy bear vanilla the sweet candy scents They smell AMAZING feel very moisturizing they give a glossy look which I like so keep that in mind

Have this in two flavors and am obsessed I am guilty of also wearing during the day The color of this goes beautiful on top of a red lipstick

The dry cold winters in Alberta leave my lips so incredibly dry and nothing seemed to help I use this nightly before bed and wake up every morning with hydrated soft lips Highly recommend Its not that this is bad but its also not good very overrated and over priced Vaseline works better and is like 2 dollars

Ive been having chapped ever since I started using accutane from high school mid 20s now and stopped using it Until now I was using lip balm which was good but I ended up with semidried lips in the morning But with this lip mask my lips have been feeling healthy and hydrated even a bit plump the healthy plump Its a pricy lip mask but you barely need a lot each night so this will last you a year a best

Im sad to say that I dont understand the hype around the Laneige Lip Masks The formula feels nice when you first apply it slippery Vaseline consistency but smoother in formula but it doesnt hang around long and has never lasted through the night with me I really wanted to like this because it has a huge influencer and TikTok following but it is overhyped and overpriced for a Vaseline-like mask in my opinion I tried the original mask and the light berry scent reminds me of bubblegum-scented numbing oral gel which isnt pleasant As well as being pricey Laneige is not cruelty-free I think Bite Beautys agave mask or Tatchas Lip Mask are better luxury lip masks if you do not want to use Vaseline and I find that both are in a similar price point but have been more moisturizing and cruelty free

Throw away all of your Carmex and other lip balms and get this its a life saver for dry lips I was a chronic Carmex user constantly applying it all day and picking my lips reapplying Carmex repeat After using Laneige my lips are moisturized and smooth and I only need to apply it a couple of times a day It doesnt sit on top of my lips like other chapsticks and I hardly pick my lips at all now I highly recommend this for both day and night use and especially if you have dry lips and nothing else works

my holy grail lip mask this one smells and tasted like sour gummy bears i love it i use it every night
